

Answering the Call

It is always exciting to see God answering the prayer for more laborers. The work is too extensive and too demanding to do it alone, our prayer to the Lord has been that He would call more workers and that is exactly what He has been doing. Pablo Chavarría started attending our church about four years ago. It has been a joy watching him grow in the Lord and mature as a Christian. He expressed to us that He felt God calling him into ministry and that he wanted to attend a Bible School. After praying and searching we

heard about a missionary training school in Somoto, Nicaragua. The school is inter-denominational and is focused on preparing missionaries to take the gospel to the unreached people groups. Pablo enrolled this past February and has been working hard on his studies. Despite missing his native Honduras, his typical food and the closeness of his family he is determined to stick it out and finish his schooling. After graduation he plans to return to Honduras and work with us, possibly pastoring a new church or starting a new work. We are looking forward to see what special things God has in mind for this young man. Pray that he will stay focused and encouraged as he answers God's call on his life.

Hery Santiago preaching

Revival at Tiloarque

Standing room only! The services for our anniversary revival at Tiloarque were packed and overflowing. But the most exciting thing was that the services were overflowing with the presence of God. Hery Santiago arrived from Florida to preach the revival and was used greatly by God to touch hearts. Our church people made a special effort to invite friends and neighbors to the revival and there were numerous visitors present for the weekend of services. We also brought a van load of people from our Las Uvas church every night so they could also get in on the blessing. We had a wonderful time. Many seekers got help around the altar and sought to go deeper in their spiritual lives. As a result of this revival we have had several new people attend our regular services.

Thinking back six years ago when this church was born out of prayer and fasting we can't help but praise God for all that He has done for us. Through the fire and through the flood He has kept us covered by His blood! The Word of God continues to be preached and souls continue to find grace and forgiveness. Just a few weeks after the revival we had a young couple, who was not attending any church, ask if they could dedicate their little girl to the Lord. Since that dedication they have been faithfully attending and the mother prayed to be saved! We are praying that the father will soon give his heart to the Lord.

The church at Tiloarque is at a critical time. We are quickly outgrowing our church space and we are praying about what the next step is for the future of the work. Help us pray for God's direction, we want to increase our soul winning capacity, get a parsonage and church that will be our very own instead of renting, and help establish the work. How to accomplish all of that we are not sure, but we sense that God will soon reveal to us what we are to do. So stay tuned for some breaking news and keep praying that revival fires will burn.

A full house! There were lots of visitors.

Every night the van came overflowing from Las Uvas.

Given to Hospitality

The months of March and April were busy with visitors. A few days after our revival Shane and Anna Cooper came for a few days. Shane is studying aviation and is seeking God’s will for their lives as to where they can be of service. They wanted to visit our churches and pray about God’s direction for their future. Next, came Libby and Jenny. Libby Snyder was accompanying Jenny and her family who are from Honduras and took a few days out of her schedule to come by and say hi. It was a lot of fun being together and catching up on life. In the beginning of April my parent’s (Eric’s) came to spend a month with us. We had a blast. My dad is a carpenter and we put his skills to good use fixing things around the house, building a new desk for my office, a toy box for the boys, shelves, kitchen cabinets for the parsonage in Las Delicias as well as fixing our broken down washer. My mother worked hard in the kitchen baking pies and making meals for our people. It was such a joy having them hear. We also took a few days to just get away and relax. We rented some cabins near a lake and spent two days shooting the breeze, eating around the campfire and just spending time together. It was so refreshing. My parents definitely touched a lot of lives while they were here and won the hearts of the people. They will be greatly missed!

Supporter Impacts

Supporting missions is much more than just helping a missionary family survive on the field, your prayer sand giving is literally changing lives. Many of you will remember that during our deputation last summer we raised funds to buy a van. It has been a tremendous tool. We have not only used it for ministry, but it has become a source of income for our church as well as for one of our parishioners. Geovani Dubón was a new convert wanting to help the church. He was without a job and struggling to make ends meet. But after buying the van we put Geovani to work. He drives the van on Sundays for the church and also drives the van during the week days for a local school, hauling children back and forth to classes. The contract we have with the school not only pays the gas for the van all week, it also pays for Geovani’s wages and brings an income in to the church. Because of your giving towards this project, churches are being blessed and a man is making a living. Yes! Your giving makes a difference!

Daniel Turned Three

April 17th was the big day when Daniel turned three. His Nana made him a cake and we had a little party for him at our house. We thank God for his life. He is such a pleasant and happy little boy and often makes us laugh and smile. One of our favorite times of the day is when he hears the school van that brings Joseph home. Daniel gets excited and runs outside saying “Jo Jo, Jo Jo” and gives his brother a big hug! Daniel loves music, playing hide and seek, eating chips and he especially loves Barney! He is our little ray of sunshine that warms our hearts and keeps us young! Thanks to everyone who sent him cards and well wishes!

This group just finished their discipleship classes. They are preparing for baptism.

My dad made new cabinets for the parsonage in Las Delicias.
